"What would become of this country if we should abandon the churches, unfrock these ministers and put them to secular employment?

"That which buttresses the very foundations of our government is the moral character of our people, the direct result of the influence of the church.

#### His Life's Mission.

This Litte's Mission.

"I am a non-producer. I could not shave a jack-plane or plough a straight furrow, and, measured by some standards, I would not be considered much of a factor in the world; but, if I can preach a pure gospel and turn some souls to follow the Man of Gaillee, I contribute as much to the progress of the world as the merchant prince or bank president or railroad owner; for without religion property would be unsafe bonds unstable, and the affairs of men in choos and confusion.

"If material structures are necessaries."

fusion.
"If material structures are necessary, build them; if they are descroyed, religion will perish from the carth.
"The Methodists build six new churches each day, and as we build we grow."
Bishop Galloway urged the people to be regular and prompt in their attendance upon church services, and said the Lord had decreed that out of the personal ministry of His messengers the world shall be redeemed.

It ill the Oratory.

#### Utility of Oratory.

He took no stock in the oft-repeated assertion that the day of the orator has passed, and cited Bryan's wonderfu-stroke at Chicago in 1806 in support of his

contentions.

In speaking further of building churches the bishop said; "Tear down the old ones, if necessary, and construct new ones. Let everything be new but one-preach the old Gospel! "The tenderest memories should be adorned and made the most beautiful and intractive of all earthy structures; for it represents Him, who is the fairest among (en thousand, and the One altogether tovely."

The hishop's peroration was very bead; that, and it is believed that no one left diffring his splendid discourse, though a green many had to undergo the incontract of the order of standing during the entire-

he conclusion of Bishop Galloway's sermon, a collection was taken to raise friends as still confined money to help defray the cost of the suffering considerably.

## GOD HIDETH HIMSELF.

Wherein Jehovah Has Concealed
Himself From Men.
The Rev. Mr. Forsyth, at St. Paul's
Episcopal Church, preached Inst night
from the text, "Verily, Thou art a God
that hideth Thyself, O God of Israel, the
Saviour," and showed how God has hidden Himself from the gaze of men in respect to His person, His perfection, His
election of the Jews, His providence and
His sift of His Son to be the Redeemer
of mankind. He argued that God is love,
that He "so loved the world that He gave
His only begotten Son, to the end that all
that believe in Him should not perish, but
have everlasting life," and that the only
real demand that He makes is that His
children love Him in return, as the earthly child loves his earthly parent.

Colonel Richardson, register of the Land Office, has had crusaed granite wakes put down around the Capitol and also steps at the embankments formed on the south-cast side of the building by the dirt piaced there which was taken from the excavation made for the foundation of the new heating and lighting plant. This arrangement is only temporary, pending the location of permanent walkways and a contemplated driveway around the Capitol, but it is not likely that anything further can be abore until the Legistature adjourns, as the present walse will have to remain fatact for the use of mombers during the session. The grass plats around the Capitol cannot be restored until the permanent walkways art located and put down, and it is understood that the architects are making plans for them. Though the contractor has not yet Completed the building and it has not yet been placed in charge of the register, he is having many things done not included in the builder's contract, and that are needed for the comfort of the State officials that have moved back and for the General Assembly.

As soon as 'he rems intended for the use of the Land Office are sufficiently dry for the proper preservation of its valuable records and the register can have the old book-cases now in use cut down to conform to the Erneh raise in the floors of these rooms (if he has to use these cuses), or when new cases are put in if furnished him, he says he will move back to the Capitol, unless ordered sooner to do so.

The resister is making no kick about his conarers, except that they are yet too damp for the safe-keening of the valuable records of his office, and that he is unwilling to assume the responsibility for damage that would result to them from moving in before the offices are thoughly dry.

Reports were also read from all of the mission societies of the church, and they show that the church work along all lines has been flourishing as it never flourished before. One of these very gratifying reports was that submitted by the Woman's Building Fund Association, in which it was shown that in the little ways that women understand so well, they raised last year \$1,165 for the new church building.

In speaking of these reports Mr. William Ellyson made a stirring talk, and spoke of the solritual growth of the church. He said now that the great effort of building and equipping the

The annual meeting and election of officers was held in the audience-room of the First Baptist Church yesterday afternoon at 3 o'clock, Rev. G. W. M. Medanie, pastor, presiding. There was a very large attendance, and reports of the pastor and all the societies were unusually interesting. The report of the pastor showed that he had received 116 into the membership of the church from the time he has been installed—less than a year. The church had lost cleven by death, twenty-six by letters of dismissal, making a net gain of seventy-nine. The reports of all the societies showed marked improvement, most of them being from 50 to 100 increase over lust year. The treasurer's report showed that more than \$16,000 had been paid into the church. The collection for benevolent objects were very gratifying, particularly of the Home, State and Foreign Missions. The special election to fill the vacancy will be held on January 30th, and Hallfax people who come here are of opinion that Major H. A. Edmondson will most likely win the race.

The Republicans will hardly run a man, their committee having so decided. The only entries so far are Major Edmondson and Mr. H. O. Kerns. They are both good men and are quite popular. Major Edmondson, however, is said to be much better known, and in closer touch with the people of the county. He was for many years chairman of the county board of supervisors, and has served with distinction in the House of Delegates.

Mr. Kerns is a high Mason and a farmer, to both of which distinctions Major Edmondson also lays just claim. Mr. Kerns itves on the Pittsylvania line, and it is said that half of his house is in that county. He came within a few votes of being nominated for the House from Halifax in the last primary.
